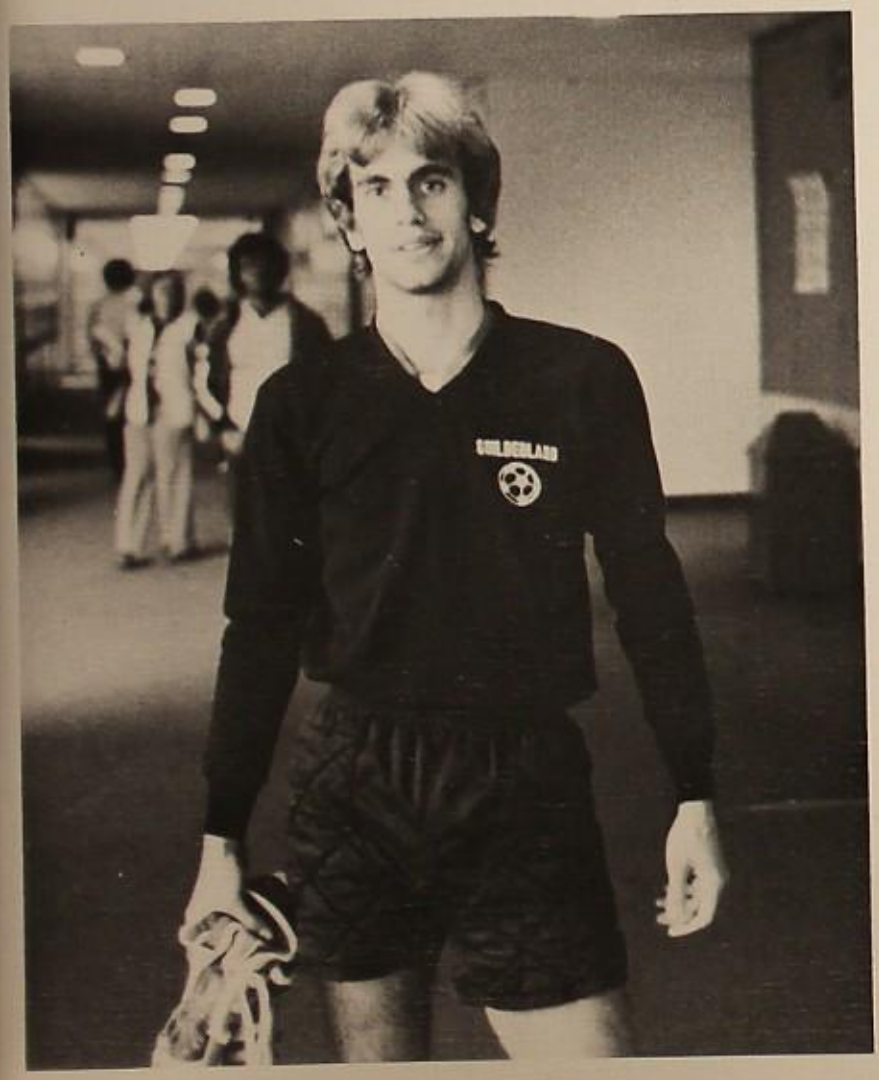
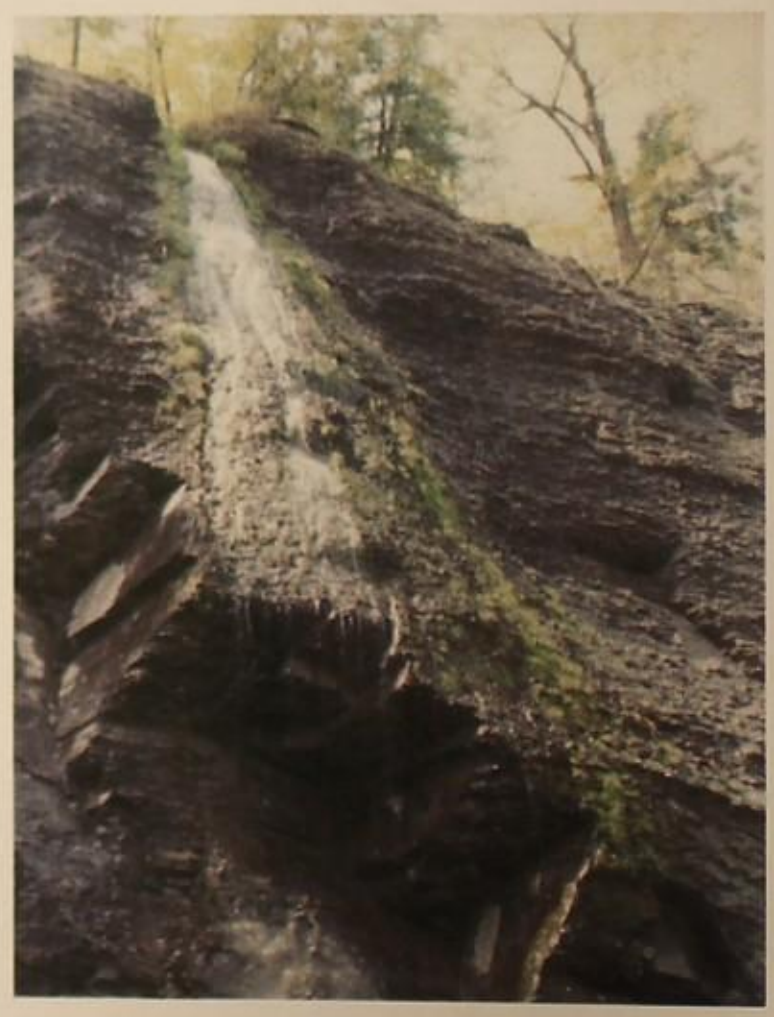
Life — So They Say

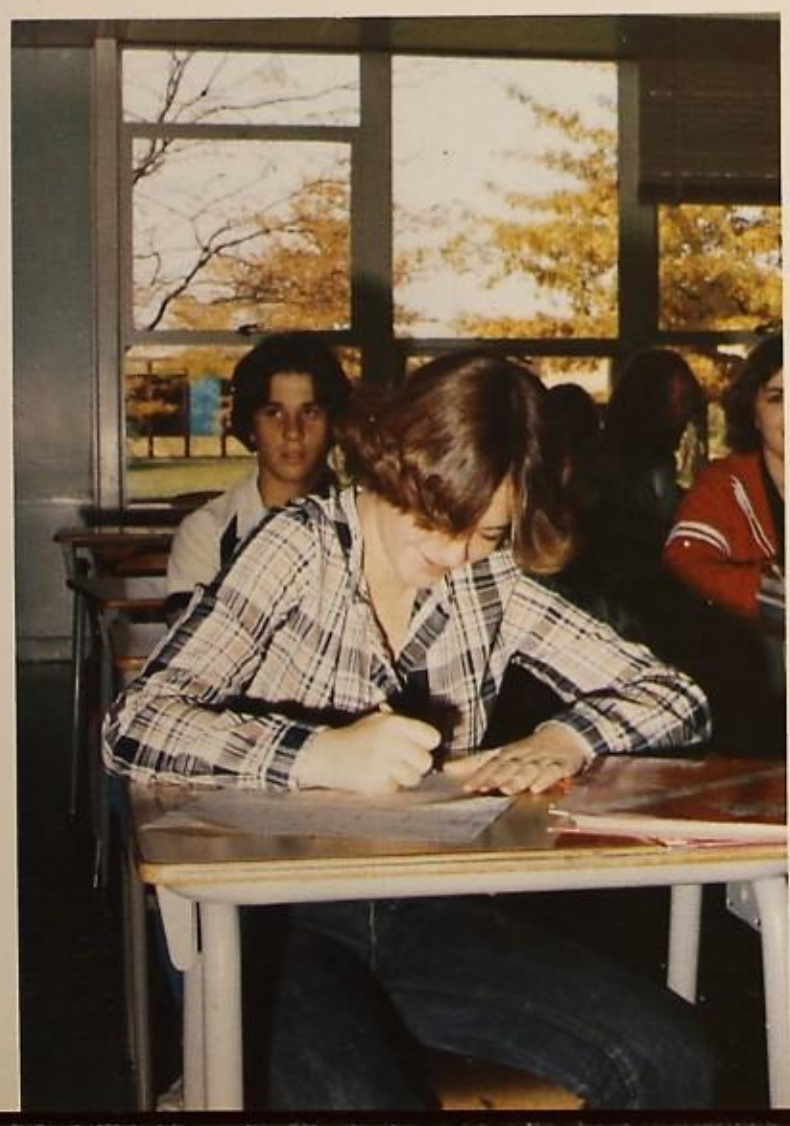
Is But a Game
And They Let It Slip
Away

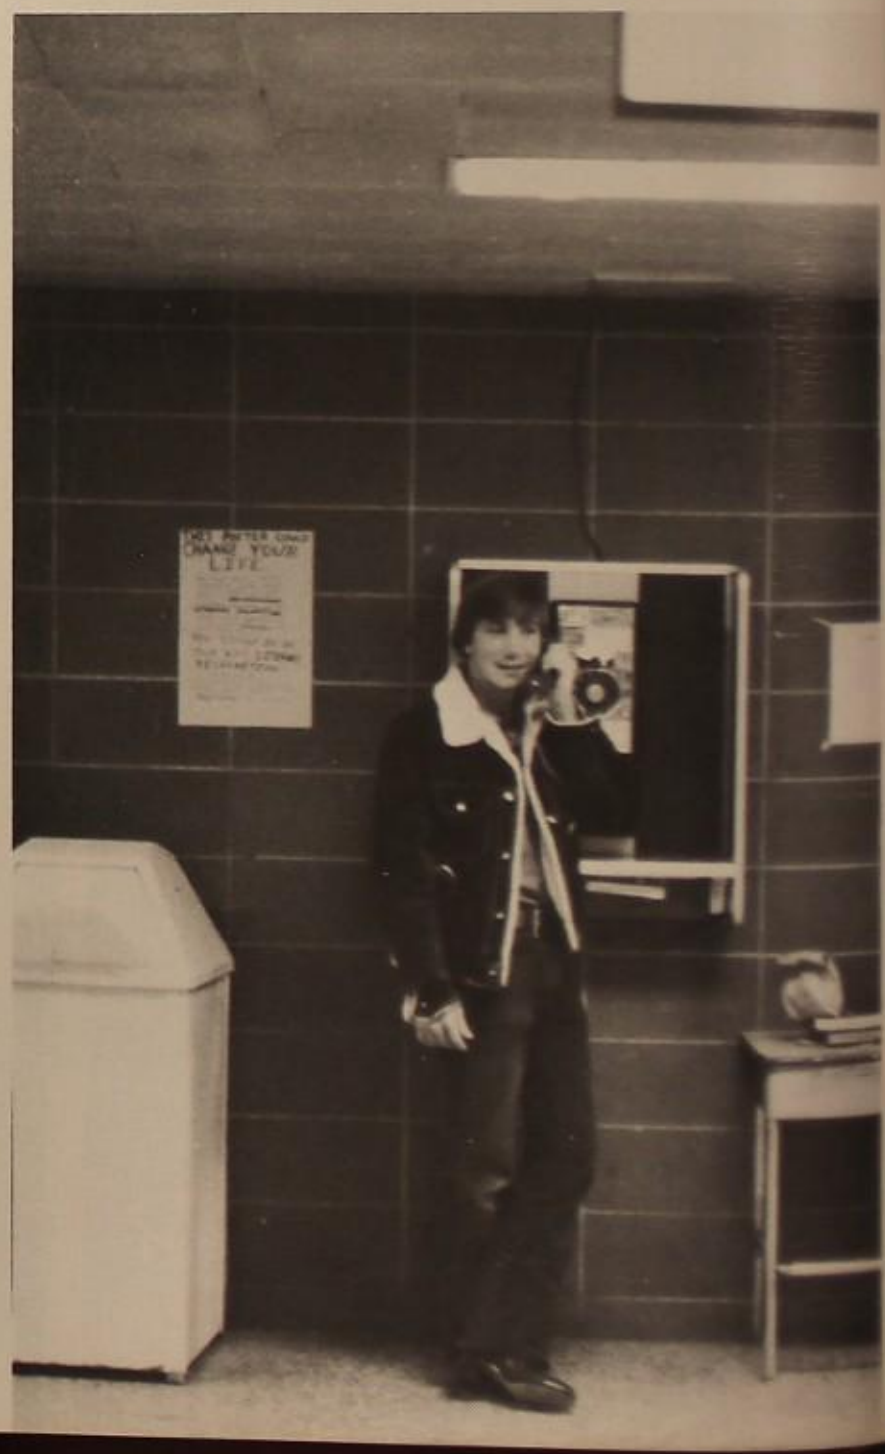


Like
the
Twilight
in the Road
Up
Ahead



They Don't See Where We're Going





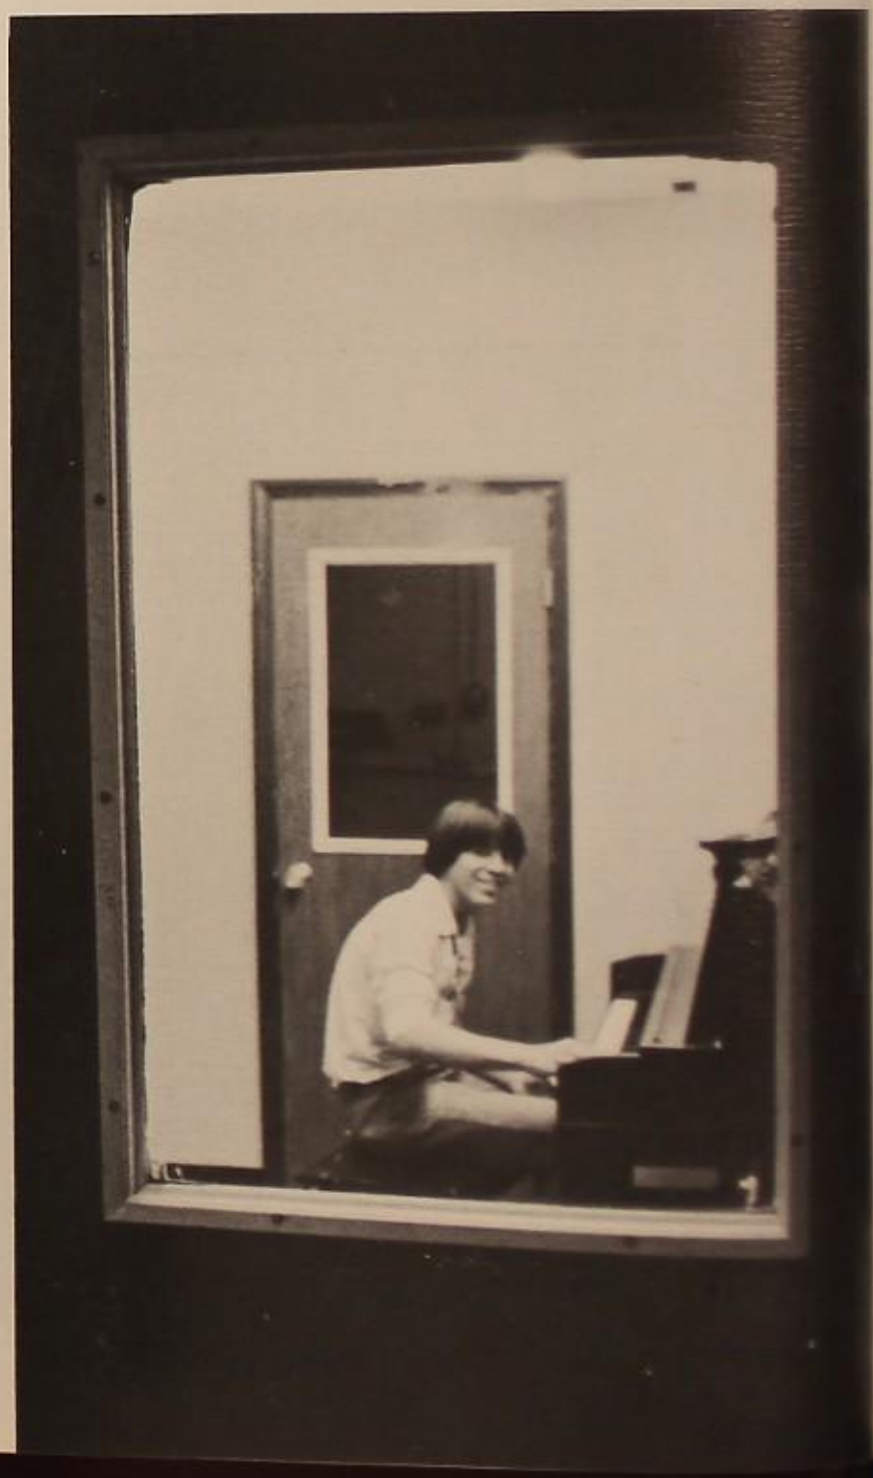
And All the Secrets
In the Universe
Whisper in Our Ears

And All the Years Will Come and Go and Take Us Up, Always Up.

WHAT A LONG
IT'S EE

STRANGE TRIP

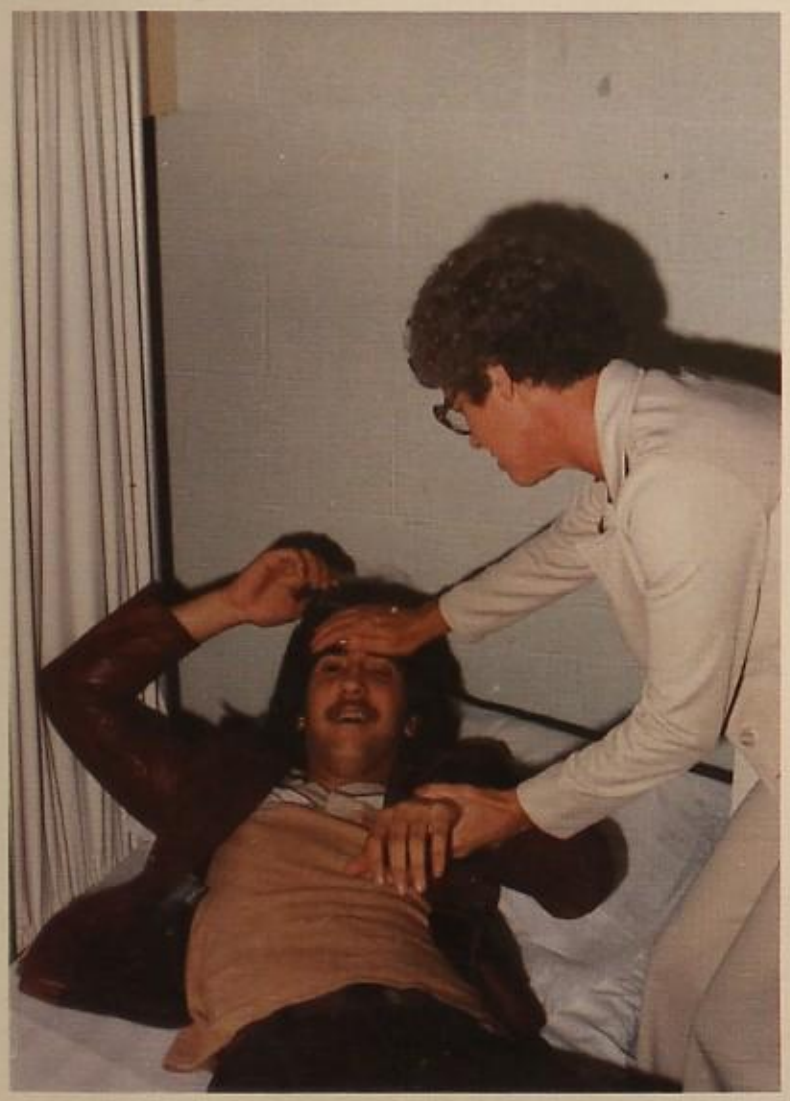
Like Columbus in the Olden Days
We Must Gather Up All Our
Courage, Sail Our Ships Out
On the Open Sea



Cast Away Our Fears and All The Years Will Come and Go,
And Take Us Up, Always Up

I May
Never
Pass
This Way
Again

That's Why I
Want It With You



'Cause You Make Me Feel Like I'm More Than A Friend

Like I'm the Journey and You're
the Journey's End

I May Never Pass This
Way
Again, That's Why I
Want
It With You

We May Never Pass This Way Again

PRINCIPAL'S MESSAGE

As you are already aware, and will progressively become more aware, human beings are filled with contradictions. Perhaps this adds to the charm, excitement and beauty of life.

Of all the creatures on earth, humans alone know they must die and they wonder "why"? Humans alone marvel at the miracle of birth and contemplate upon the hereafter, eventually filling their innermost needs with the thoughts of a deity.

You have noticed the human is an extremist — cruel and loving, lazy and energetic, creative and destructive, timid and aggressive. Only humans smile and laugh and cry in a never ending search through the labyrinth of their mind for answers — answers which can carry them from the depths of depression to heights of joy.

In all of this, the human alone knows the gift of hope. Hope for a better tomorrow — for peace, well being, health and happiness.

May all of these be yours.

Farewell, G.C.H.S.!

Is it time to leave already?
It seems as though it was just yesterday
That we met the people we spend so much time with.
It is hard, yet it is easy.
We do not want to leave our friends,
But we want to go on to achieve the goals
That we have set for ourselves in life.
We will miss them.
The school, our friends, and all the
Laughter we have shared together.
But the memory will remain with us.
We can never forget these past four years
That played such an important part in our lives.
It is sad to have to leave this old,
Familiar place.
This place where we learned to share our good times
And our bad with one another.
But we will never forget what it has meant to us.
Throughout life, we will look back on
Our high school days at Guilderland
And remember those four special years.
It has all gone by so fast.
But as we look around we realize,
Yes — it is time.

Facing Graduation

Faces of old and faces of new,

People we know and people we
knew.

Growing together then drifting
apart,

Always an ending and now a new
start.

At graduation we all grow nearer

And all of our friends seem so
dearer.

And as we say our final goodbye,

One last embrace and one more
cry,

A "keep in touch" and a "promise
I will"

A "remember when" but, better
still,

This is what's said as we go our
own way.

For Dave

They layed him in the ground today.
He was scarcely more than a child at play-
Sixteen years old, and God took him away.

I glanced around the chapel where
The many heads were bowed in prayer,
The priest's voice gentle on the summer air.

Oh, how he'd be missed, this child of God!
It seemed so senseless that path he'd trod,
And now all that held promise going under the sod.

His parents, how strong! Their faith unshaken
Though the joy of their lives had just been taken,
For they know from that sleep one day he'll awaken.

To claim his place in the heavens above-
A place that's been promised by a Father of love.
The knowledge of this touched my heart as a dove,

Smoothing the confusion, soothing the pain,
Carressing my brow like a cool summer rain.
For what men sold their souls, Dave had obtained.

And just as his brother the Chosen One,
Having been for many the perfect son,
He, too, was called home when his mission was done.

Then in the strained silence it came clearly to me
Dave had been all I wished I could be-
Loving and giving so selflessly.

For though we'd known him such a little while,
He'd touched our hearts with his gentle smile,
Exhibiting faith through life's many trials.

And although I am more than twice his age,
He's given me courage to turn the page,
Writing the chapter of my life's final stage.

Too soon we will find that we all reach the end,
Our weary feet quickening as we round the bend,
To be finally embraced in the arms of our friend.

Then all that we've suffered will matter no more,
The time we were parted a day, scarcely more-
For we gain eternity when we reach Heaven's door.

Mrs. Busch
August 22, 1979

Dave Mislan died in a car accident on August 19, 1979.

Dave was a very loving person, he was always helping someone, in some way. I'm sure that everyone who knew him, well, will remember him in that way.

Although he lived a short life of 16 years, he lived a very happy one. Every day he had something to do, whether it was for himself, or for someone else.

I'm sure that the memory of him will live forever. All of his family and friends will cherish the time they spent with him.

FOREIGN EXCHANGE STUDENTS: 1979 and 1980

Beatrice Landivar (Bolivia)

I'm Beatrice Ladivar, a Rotary Exchange student. I come from Bolivia, which is situated in the center of South America. My program is for one year in Guilderland High School and it is my last year in school.

Coming here has been, for me, one of my biggest experiences because I'm learning different customs.

I will try to learn all the positive things of the U.S.A. and take them to my country.

The impression which I have received here is that the students have many opportunities to take advantage of. Apparently there are many activities in different aspects.

My country still has not been totally organized or completely developed.

I feel very contented to stay a year here and share my life with other people who all have distinct personalities but yet all of them share something in common with me. I hope to learn English well and go back with a second language.

Dennis **Kostiris** (South Africia)

After twelve years at an all boys school, where I wore a uniform, I found myself in somewhat of an unusual situation. I was embarrassed at first, but then again, one can always adapt to having girls in school. (Please don't misunderstand me, I don't mind having girls in my school.)

The most enjoyable aspect of being an exchange student is that you are always learning something new. The first was crossing the road (in South Africia we drive on the left hand side of the road, whereas over here, Americans drive on the right side of the road.)

My biggest thrill was playing on the Guilderland soccer squad. I was really proud to be on a team that did so well. I am thankful to all those who made my stay most appreciable.

Mike Vottis (New Zealand)

Last year I overcame the apprehension associated with flying. On February 9, 1979 I packed up everything and left my friends, family and Guilderland behind. I went off into the wild blue yonder to be a Rotary Exchange student. People thought I was crazy — perhaps they were right. I found myself in the southern hemisphere in Auckland, New Zealand — close to 10,000 km. away from New York and home.

I was in a strange new land but I had no fear for the people of New Zealand are not savages as some might expect but rather warm, hospitable people who live in a most beautiful country.

New Zealand has 3,000 miles of coast line, active volcanoes, ski fields, and geo-thermal regions. Yet the land area of New Zealand is comparable to that of Colorado.

While in New Zealand, I went to Birkdale College, which is like high school, and participated in classes and sports.

I studied English, History, Geography and Engineering, and General Studies, which is an elective-type program with courses like grass-skiing and Chinese cooking. I played that rough English sport-Rugby-and even scored. And I surfed every chance I could.

Reflecting on the year, it was excellent and I am really glad I had the chance to be an exchange student.

As it turns out, I am not really crazy, but just someone looking for adventure. Thanks, Rotary.

Martin Otter (England)

In a lot of ways England is very similar to the United States, if anything more advanced. Life is very fast moving and so we now have the Concorde, 150mph trains and cars and many other new ideas America has never heard of. This may come as a suprise to a lot ot people who seem to have the idea that we run around in bearskins drinking tea and say "Jolly good, old chap."

England as a country is very small, only about 2 ½ times the size of Texas but is very diverse. It has historical areas from 500A.D., mountain and plain areas as much as the U.S. has.

The only disadvantage about being an exchange student is the fact that you have to leave all your friends behind. However, I found it easy to make friends over here as all the people seem to be more friendly in a lot of places.

I would like to thank all the students and faculty for making my stay as pleasant as possible.

Would someone get these guys off my back?!!

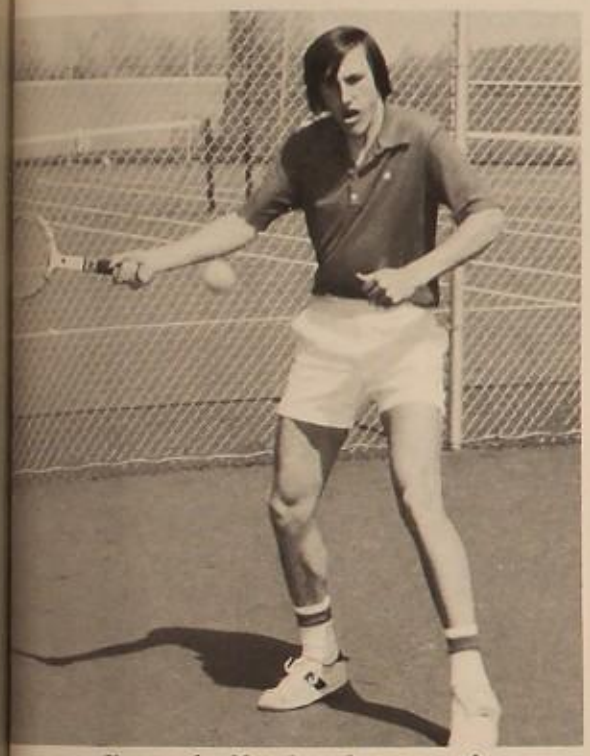
The agony of defeat

Can I play Soccer too?

Everything looks better upside down!

I've got it and you can't have it!!!

Another exciting game at GCHS



Yes, your backhand needs some work.

If you guys don't get out there and play right you'll never play again!!!

Front: Captain Rick Martin, John Burde. Row 2: Tod Zagoda, Pat Bender, Ken Salmon, Karen Wilson, Dennis Ryan. Row 3: Ben Burde, Chris Napierski, Dick Towers, Mike Vottis, Greg Butner, Kurt Oreiboltz. Row 4: Steve Killoran, O. Cullen, J. McNaulty, J. Reavis, Liz Walker, Warren Strout. Missing: J. Roberts, A. Jacklet.

The Ski Team had a dissappointing season this year due to the lack of snow. There were seven meets for Alpine and only three for cross country. The team captain for the boys was Rick Martin; Lori Harding led the girls. Sharon Karl qualified for the state meet at White face.

The girls had much more ability than evidenced in their showings with a record of 8-6 overall season. Two hard fought games lost in extra innings by one run. Superb showings by TC Conway, Lisa Dapolity, Barb Haines and Rosa Prieto on several occasions sparked the team. The loss of Jeannene Falanga hurt the pitching strength but Dina Lutz fought and did well in two tough games.

MARCH 20-23, 1980

ONCE UPON A MATTRESS

This year instead of a single musical performance presented during the middle of March, the Guilderland players are presenting two smaller productions. *Once Upon a Mattress* is the main performance but *Welcome to the Monkey House* was well received and all the people involved in both shows should be congratulated for all their hard work.

Good luck to all of you on future productions!

BOCES

Board of Cooperative Educational Services.

There is a wide array of courses that are offered to the students from around the district that go to BOCES instead of staying in school all day. The different programs that the Guilderland students are involved with are:

Cosmetology, Special Education, Quantity Cooking, Electrical Trades 1, Electrical Trades 2, Metal Fabrication and Welding, Auto Mechanics 1, Auto Mechanics 2, Auto Body and Fender 1, Auto Body and Fender 2, Building Construction 1 and 2, Diesel Mechanics and Trowel Trades.

BOCES offers students a chance to learn a skill. A student may go for either one of two years. BOCES is an option to going to an apprentice school or trades school. After completing the program at BOCES a student is awarded a certificate which enables him to find a job in his desired field.

When the Class of 1980 started out in Guilderland High School four years ago, a chuckle or a snicker would come from some teachers, "the class of 1980! It sounds like the name of a science-fiction novel! Imagine, the class of 1980." Well, back then it didn't really hit us that one day we'd actually be "the Seniors" and that graduation day would be facing us. Here we are though, "The Seniors", making plans for our futures and trying to make the most of the time left in our senior year. Looking back at our four years, it becomes so obvious that the class has grown, not only in height but other physical ways, but in spirit and enthusiasm too. It's been fun, and we wish you all the best of luck in your future years!

A rare shot of the VanPatten girls in school!

This past year the sophomore class sold light bulbs, the profit supported activities for the school. At Christmas time the class decorated the showcases in the West building, which filled the school with Christmas spirit. In January the class hosted a rollerskating party which everyone enjoyed. The sophomore semi-formal will be held in April, which everyone is looking forward to.

WHAT'S IN A NAME?

TAWASENTHA

Name of a yearbook. Name of a park. Name of what else?

North of Guilderland Center on Route 146, a stream flows along the southern edge of Tawasentha Park. That stream is called the Normanskill. But "kill" is the Dutch word for creek, so that name is fairly new. How new? Well, the Dutch first came into this region of the New World 371 years ago.

While that may not seem like a long time ago, this stream or creek has been there much longer and other people lived along its edges and used its water. Before the Dutch arrived, the Indians lived in this region. They called this stream Tawasentha and it meant "full of the dead."

Today we do not know the exact location of the site that gave this stream its name. However, it still flows twenty miles east to empty into the Hudson River just south of Albany. One hundred and fifty miles to the south, the waters of Tawasentha and countless other streams join the Atlantic Ocean.

Most streams this size are not known beyond their own region. Tawasentha is known throughout the world because Henry Wadsworth Longfellow immortalized it in his poem *Song of Hiawatha*.

In the vale of Tawasentha,
In the green and silent valley,
By the pleasant water-courses
Dwelt the singer Nawadaha.
Round about the Indian village
Spread the meadows and the corn-fields,
And beyond them stood the forest,
Stood the groves of singing pine-trees,
Green in Summer, white in Winter,
Ever whispering, ever singing.

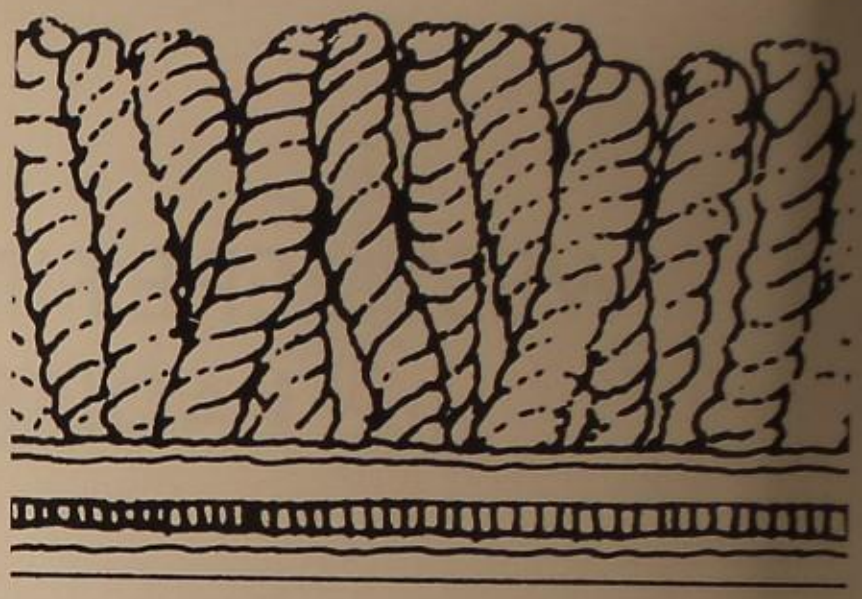
Conventional methods
skim the surface.



Janitronics cleans right
down to the backing.

Compared to Janitronics, most carpet cleaning methods are pretty superficial.

Most carpet cleaning methods merely pretty up the surface — and leave dirt deep in the pile. Dirt that soon works its way back to the surface. Abrasive dirt that grinds the life out of your carpets before their time.

Janitronics truck-mounted unit has 10 to 20 times the power of competitive units. Your carpet looks better to begin with and actually stays cleaner longer. And, has a longer, more beautiful life in the bargain.

Get a free estimate from Janitronics.
If your carpet needs cleaning, let's get to the bottom of it.

The Janitronics carpet cleaning system.

Not just clean. Cleaner.

The Varden Portrait

For some people, a diploma is not enough.

Some people feel that there should be more to graduation. More than just a diploma. A timeless commemorative of your graduation is the Varden portrait.

Your Varden portrait will speak with distinction. For over 30 years, the name Varden has meant the ultimate in portraiture. When you graduate, don't settle for less.
